

## Deliverables

### Objective

- To expand cooperative projects on transport safety and share the latest trends in transport technology through high-level seminars held in AMS.

### Activities (High level seminars)

- The high level seminars have been held 7 times since 2012.

—Past seminars:

2012: Indonesia, Myanmar

2014: Viet Nam

2015: Myanmar

2016: Cambodia

2018: Viet Nam

2020: Malaysia

- Over 100 people from governments and private enterprises in AMS and Japan participated in each seminar.
- The efforts are made in various fields now, so the high level seminars ended.

### Outcome

- For example, the memorandum of the cooperation of national technical standards of harbor facilities between Viet Nam and Japan was concluded.
- Now, the workshop is held by research institutes of both countries based on the memorandum.
